

The Move into Life Project Group

2020 Performances & Events on Zoom 2020

The **Move into Life Project Group** have been working over the last year with movement art as a shared resource, supporting each other to find ways to crystallise a piece of work of their choice. Since March we have continued to work together on Zoom, with all its challenges, as a shared environment.

As a result, we see the work we are sharing this year very much as ‘threads’ of projects that are still in evolution, as ‘snowflakes’ rather than as finished ‘products’ and we invite you to join us from that point of view.
